Life Journey Publishing, United States, 2014. Paperback. Book Condition: New. Jody Dias, Wendy Watson (illustrator). 2nd. 226 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This is a fascinating and unusual book for readers in intermediate grades. Lexi and Marie Curie introduces readers to the amazing story of scientist Marie Curie, whose isolation of radium, among other discoveries, led to her being awarded the Nobel Prize in both Physics and Chemistry. Shut out of much of the formal scientific academy, Marie forges her own path, one that paves the way for her daughters and for generations of girls and women whose curiosity is sparked by STEM - science, technology, engineering and math. Author Marian Keen's eye for detail draws the reader into Marie Curie's life, her triumphs and disappointments. Published to coincide with the centenary of the start of the Great War, the book brings readers back to the tremendous upheaval of this terrible conflict. Readers are treated to details about the roles of animals at the front, the challenges of cooking when food is scarce, and the important contribution of women nurses in the war. The story focuses on Marie Curie's lesser known work in setting up mobile x-ray units in field hospitals that could accurately locate shrapnel, allowing field surgeons to save lives and preserve limbs. The writing is accessible and the descriptions of war are honest but age-appropriate. This book will serve as a useful reminder to both girls and boys that women have been making history in all fields of endeavor for a very long time, and that our pioneers ought not to be forgotten. Lexi and Marie Curie will encourage girls, in particular, not to take no for an answer and to rely on their wits and...
